

Re: The renovation of Bridge Street School into a Community Center facility.

Dear Board of Selectman / Board of Finance,

I would like the Board to renovate Bridge Street School for use as a community center. It is an asset to our town center and would be an excellent use of the space.

Repurposing the building and grounds for a community center would be most beneficial for our town residents. I envision an expansion of Parks and Recreation programs allowing residents of all ages to participate in programs throughout the day.

Town support of this project would rejuvenate our town center and encourage families to utilize the many programs Suffield has to offer.
